“American Buddha literally means Practical Awakening. American Buddha is about experiencing the consciousness of a Buddha or a Christ while living comfortably in the western world. It is about Grace, Miracles and Enlightenment. So we are all potentially ‘American Buddhas.’ There are many aspects of the Awakened experience that will be made available for the first time during this workshop and you will receive an introduction to secret advanced “Spiritual Technologies.” Many wonderful miracle stories will be highlighted during the workshop and you will have an opportunity to directly experience higher states. We will try to answer as many of your questions as possible during the workshop. Here is a sample of the types of questions that we will cover.”

Who am I and why do I suffer?

What is the ONLY reality?

Is Enlightenment a real thing?

What do the terms Enlightenment or Awakening really mean?

What is Grace and why is it so important to Enlightenment?

What are miracles and how is Grace related to miracles?

How does Oneness relate to the ability to create miracles?

How does physical manifestation really work?

How can I overcome my programming?

Biographical Information about Stuart Mooney:

Stuart Mooney is truly an “American Buddha.” For more than 35 years, he has lectured, all over the world, on the “Nature of Awakened Consciousness.” While he was living in South India, Stuart was used as a channel by the Siddha masters. He healed and transmitted Divine Grace or Shakti to thousands in the ancient temples there. He has been trained to transmit the Oneness Blessing under the guidance of the renowned Avatars, Amma and Bhagwan. Over the years, he has been authorized to teach more than 100 esoteric (privately held) meditation techniques. He has also been approved to teach meditation under the authority of the Shankaracharya of South India. This is a rare honor for a westerner. Finally, Stuart operates from an authentic state of Enlightenment and this has afforded him deep insight into the nature of the Awakened Consciousness. You will find him to be an insightful, compassionate and a very funny individual.
